

## Isabel 6 - Activation of an IsaKey Preparation for activation

Go to <https://www.isabel.eu/isakey/card>

Check that the User id on the letter and on your Isabel card match.

Plug in your Isabel Card Reader.

Insert your Isabel Card.

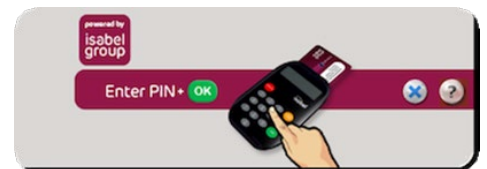

Keep your IsaKey at hand.

Click the button **Start the activation of your IsaKey**

Enter your PIN

### Step 1 - Insert batteries & choose preferred language

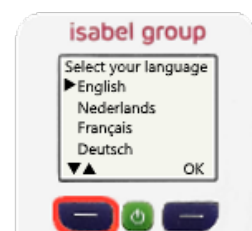

Place the included batteries in the device.

Press and hold the green power button  until the display turns on.

Select your language and press **OK**

Click the button **NEXT**

## Step 2 - Scan colored code & Enter serial number on computer screen

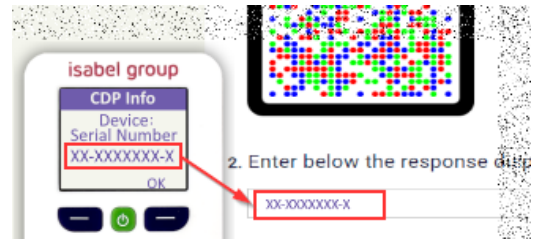

Scan the colored code on your computer screen.

A serial number will appear on the screen of your IsaKey.

Type the serial number in the field on your computer screen.

Click the button **NEXT**

## Step 3 - Scan colored code & Create a PIN for your IsaKey

Scan the colored code on your computer screen.

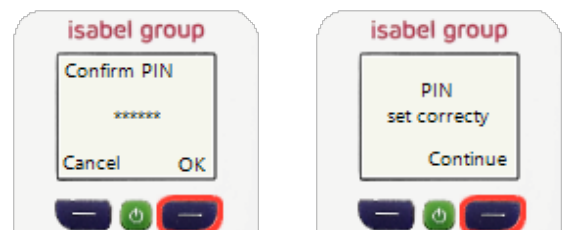

Press Continue when the display shows "Choose PIN".

When you see "New PIN?", enter your PIN on your IsaKey and press **OK**.

Confirm your PIN by pressing **OK**.

Press **Continue**.

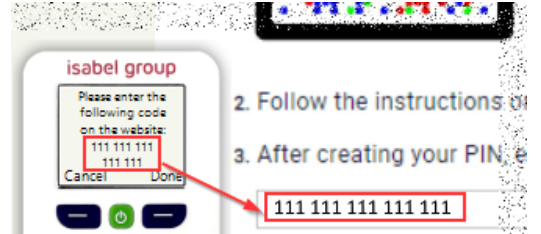

The display of the IsaKey now shows a 15-digit code.

**Important** Do NOT confirm with Done on the IsaKey yet.

Type the 15-digit code without spaces in the field on your computer screen.

Click the button **NEXT**

### Intermediate step

Press **Done** on the IsaKey.

Confirm the question as to whether the code was accepted by the website with **Yes**.

Press **Continue** when you see the message "Please scan the second activation image".

Click the button **GO TO THE SECOND ACTIVATION IMAGE**

## Step 4 - Complete the activation

Scan the second activation image on your computer screen

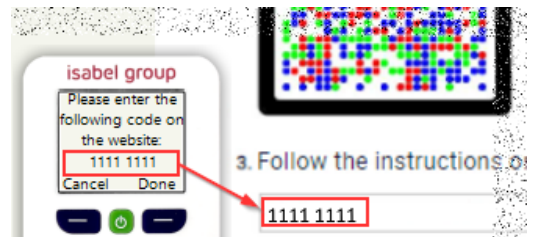

The display of the IsaKey now shows an 8-digit code.  
**Important** Do not confirm with "Done" on the IsaKey yet.

Type the 8-digit code without spaces in the field on your computer screen.

Click the button **COMPLETE ACTIVATION**

Press **Done**.  
Press **Continue**.

Click the button **CLOSE**

You can now use your IsaKey to logon and to sign.
